# Connection Methods

## Connection Method 1: SNAP BUTTONS

For snap button connections, locate the snap button on the connector or swage tube. Locate the hole on the corresponding tube. Press the snap button with your thumb and slide the tube and connector together so that the snap button snaps fully into the lock hole. To disassemble, press the snap button and pull apart.

## Connection Method 2: PLT-BP-LN114-S5-450

Join the frame to the stabilizing bases. Fasten the screw carefully using your allen key tool. Be sure to fasten securely, but do not overtighten.

## Connection Method 3: TC-30-90T

Compress one unlocked end of the connector and slide it through one tube end. Compress the other end of the connector and slide the second tube on. Lock both screws carefully using your allen key tool. Be sure to lock securely, but do not over tighten.

# Kit Assembly

## Step by Step

### Step 1.

Gather the components necessary for assembling the frame. Assemble in the order the Labeling Diagram instructs.

Please reference Connection Method 2 for more details.

### Step 2.

Locate your pillowcase graphic. With the pillowcase unzipped, encase the frame by covering the frame from top to bottom. Zipper at the bottom.

### Step 3.

Locate the stabilizing bases and screws; attach them to the bottom of the frame. Use the provided allen key tool to secure and fasten.

Setup Complete.
